

Student's Name: _____

Recommendations for my child's Individualized Education Program (IEP)

One of the most important educational tasks that you can do as a parent is to assist us in identifying goals for your child. If we, as professionals, have an idea of what you would like for your child, we will better be able to meet your child's needs and your expectations.

You can provide more information about your child than anyone else. You are a valuable resource in designing and implementing a successful Individualized Education Program (IEP) for your child. We encourage you to take the time to think about your child and the goals you would like for us to address in the coming year. In preparation for our meeting, please respond to the following questions and return this form to school by _____.

A draft of the IEP will then be developed, to be finalized at the time of our meeting.

Thank you,

* * * * *

1. What are your child's likes & dislikes, gifts, interests and talents?

2. At this time, my child's strengths (academic and non-academic) include:

3. At this time, my child needs to work on the following areas:

7. I have the following expectations for my child's future (academic and social achievement within the school community):

6. I would like to stress the following information about my child that is important to his/her general development and performance in school:

5. I feel that I could do the following to help my child at home:

4. It would be helpful to my child if the staff would do the following:
