Dear Parents:

In a few short weeks, principals and teachers will begin the process of planning classes for the next school year. This process involves a review of student information by the instructional staff. It also includes an overview of each student's reading and math performance, academic strengths and weaknesses, a discussion of special learning needs, as well as social and emotional maturity. We feel this is very important in helping each child achieve academic success.

We welcome your input if you feel there is additional information that needs to be considered in this process. If you would like to provide insights regarding your child, please complete the placement form that is posted on the school's website or available in the office. Our goal is to provide all parents with an opportunity to share information regarding their child's interests, learning style and personality.

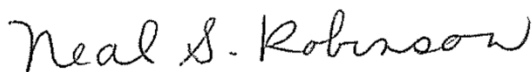

If you choose to provide additional information, please return the placement form by Friday, June 1st to the school office. While we value your insights, we ask that you *refrain* from requesting a specific teacher or placement with specific peers. Please understand that such requests make it difficult to meet the needs of every student.

Class placements are the result of much time and consideration regarding your child's learning needs, as well as a need to balance classrooms in order to provide an optimal learning environment for all students. We thank you for sharing information pertaining to your child's learning experience.

Sincerely,

Gregory C. Hutchings
Superintendent of Schools

Terri L. Breeden
Assistant Superintendent of Curriculum & Instruction

Neal Robinson
Boulevard Elementary School, Principal

Christopher Hayward
Fernway Elementary School, Principal

Carina Freeman
Lomond Elementary School, Principal

J. Lindsay Florence
